General Selection and Special Selection of Continuing Education Students

1. Qualifications for Application

(1) General Selection

One of the followings (1) - (8) should apply:

1) Those who have a nursing, public health nursing, or midwife's license as of the start of term in April 2019, or who are expected to get one by March 31, 2019 (passing the national exam), and for whom one of the following 1 - 8 applies. As following existing postgraduate and major course, applicants are not limited for female but for both female and male.

(1) Those who have graduated from university or are expected to graduate by March 31, 2019.

(2) Those who have received a bachelor's degree through the National Institution for Academic Degrees and University Evaluation, or who are expected to receive one by March 31, 2019.

(3) Those who have finished 16 years of formal education overseas, or who will have done so by March 31, 2019.

(4) Those who will have completed 16 years of formal education overseas by taking correspondence courses offered by a school overseas while studying in Japan, or who will have completed it by March 31, 2019.

(5) Those who have completed a course by an educational facility that is positioned to have the same formal education system as a foreign university while staying in Japan, and is designated by the Minister of Education, Culture, Sports, Science, and Technology, or will have completed the course by March 31, 2019. Those who have completed the course for home it will result in the equivalent of having attended 16 years of formal education in the applicable foreign school system.

(6) Those who have completed specialist training at a vocational school (length of course of study must be at least four years and fulfill the requirements set by the Minister of Education, Culture, Sports, Science, and Technology) that is designated by the Minister of Education, Culture, Sports, Science, and Technology and completed after the day set by said minister, or is expected to be completed by March 31, 2019.

(7) Those designated by the Minister of Education, Culture, Sports, Science, and Technology. (1953 Ministry of Education Notification No. 5)

(8) Those who have been examined by the graduate school and determined by a separate entrance qualifications review to have the same or more academic ability as a university graduate, and who will be 22 years of age by March 31, 2019.

2) Those who wish to enter with (8) will have separate entrance qualification review.

Working experience in nursing profession with the qualification of nurse, public health nurse, and midwife (including the years of schooling at health nurse school or midwife school) for more than the following number of years (including those expected to finish by March 2019)

Graduation from a two-year nursing program at junior college or vocational school: more than two years

Graduation from a three-year nursing program at junior college or vocational school: more than one year

Note: Applicants who wish to apply using (8) will have a separate entrance qualifications review.

(2) Special Selection of Continuing Education Students

Those who qualify under General Selection, and who satisfy the following conditions.

Those who have been working in nursing, and who plan to continue to work after entering school, and whose employer has given permission to study at graduate school.
